# 2009 PRICE LIST

## How the price lists work

Rentals are per property from the dates specified; where 'change-over days' are other than Saturdays, the rental from the nearest Saturday applies. All prices are in pounds sterling and include VAT.

### Single price bands

**ZZ**

Where there is a single green box with a letter or letters in it at the end of the property's description, find the appropriate letter code in the left-hand column of the price list (see right) and follow the row along until you reach the relevant date column. That is the rental, irrespective of whether the column is yellow or green.

### Dual price bands

**AA** **BB**

Where there are two boxes (one green, one yellow) with letters in them at the end of the property's description, the **yellow** box applies to the dates highlighted in **yellow** in the price list - **Spring Bank Holiday, High Season, Christmas and New Year**. At all other times of the year the **green** box applies.

### Price bands with numbers

**KK7**

Where you see a box with a **number** following the price code letter, the rental quoted in the price list is for that number of people, or less. Each person in excess of the number is charged for, pro rata, at a per person rate. To calculate them, divide the rental by the number following the letter(s) in the box, multiply the result by the number of people in your party. If you need help, call us.
